

## GateScan-P - Portable archway metal detector

The world's most versatile walkthrough metal detector as it can be deployed and transported to virtually any location and be up and running within five minutes by a single operator. GateScan-P has zone specific detection and is designed for use in demanding environments. It is the only multi-zone metal detector small enough to fit in the boot of a car. Ideal for sporting events, conferences, schools, VIP security or for any event or location requiring high discrimination metal detection combined with ease of use and total portability. Remarkably user-friendly and simple to operate and little operator training is required.

### What GateScan offers you

- Head to toe, zone specific detection
- A digital I/O, secured access control panel that has been designed for intuitive ease-of-use and has a built-in self-diagnostic function that will notify operators immediately if there is a situation requiring attention.
- A battery life of 40 hours,
- A total weight of less than 50 kgs
- The size of a pull along suitcase when collapsed - fits in the boot of a car.
- 100 sensitivity settings- giving users an unprecedented array of responsive and variable security magnetometer options

### TECHNICAL SPECIFICATIONS

#### Split cognitive in form & function

- Specialized design allows operator to monitor surrounding areas

#### Intelligent user friendly control panel with programmable memory:

- Digital I/O
- Keypad with security access control (lock out)
- LED bar graph for target strength
- LCD for keypad interaction
- Adjustable volume control
- Memory feature for location specific user settings
- Self test/automatic calibration at turn ON
- Last setting memory & audio indicator when turned OFF

#### Dynamic single person portability

- Weighs approximately 40 kgs (90 lbs)
- Assemble/disassemble in only 5 minutes
- Single person setup

#### Designed for use in demanding environments

- Indoor or outdoor use
- ABS polycarbonate alloy - for high impact strength and durability
- Battery operated (includes AC adapter & recharge kit)
- 40 Hour battery life
- Multiple units may work within close proximity to one another
- Designed to meet regulatory standards: FAA, NILECJ-0601.00
- Designed for EMC compliance (CE)

#### Effective Head to toe, zone specific detection

- 3 sensor zones with LEDs

#### 100 Levels of adjustable sensitivity

- Designed to meet your level of need

#### Portable dimension

- 37" (.9 m) x 23" (.58 m) x 26" (.66 m)

#### Environmental design specifications

- Temp -20 C to +70 C (-4F to +158 F)
- Relative Humidity 95%
- Rainproof IP55
- UV resistant

#### Warranty

- 12 months parts and labor

**Collapsible to carry & to fit in the boot of a car**

#### WARNING:

All metal detectors should only be used by trained personnel who have a thorough understanding of their operation.
