

## SCANWEDGE 2520 - Portable x-ray Imaging System

### Innovative, Rugged, Compact and Flat:

A new, rugged flat panel x-ray imaging system specifically designed for Security and Law Enforcement professionals. Its unique flat panel design allows **SCANWEDGE** to be used even in the most confined spaces. **SCANWEDGE** can be used from different orientations and its powerful imaging processing software produces high quality resolution x-ray images. It has a compact ergonomic design with an imaging area of 25 x 20 cm (8 x 10"). **SCANWEDGE** is available as a complete system or as a flatpanel upgrade or accessory for your current generator or other portable x-ray system.

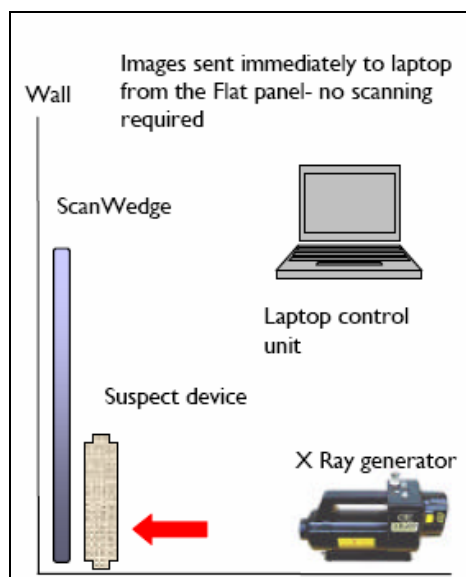

**SCANWEDGE** is available as a complete flat panel x-ray system and/or as an upgrade to Golden portable x-ray generators currently using Costly Polaroid Film or Image Processors; and Conventional CCD Imaging Boxes

### Some Good Reasons to invest in or to upgrade your old portable x-ray units to **SCANWEDGE**:

<b>High Resolution Images</b>	Utilises powerful imaging software
<b>Flatter</b>	Substantially slimmer than conventional units
<b>Safer for operation</b>	No re-approach to suspect objects
<b>Stronger</b>	No mirrors, no moving parts and few fragile components
<b>Faster</b>	High quality images straight to laptop. No reapproach, no scanning, no developing required
<b>50% more coverage</b>	<b>25 x 20 cm (8 x 10") Imaging Area.</b> Complete x-ray system fits in single case.
<b>More rugged in the field</b>	Specifically designed for Police and EOD operations
<b>Less expensive</b>	No film, no consumables, fewer fragile components
<b>More versatile</b>	Tri directional. Use upright or slide in from either side
<b>Very Compatible</b>	Use with Golden Generators and other 'safe' generators

### Dimensions:

Imaging area: 25x20cm(8x10")  
 (a) Depth(Bottom): 2cm (0.78")  
 (b) Depth Top of Panel: 3cm(1.18")  
 (c) Depth at domed area (above screening area): 10cm(3.9")

Width: 27.5cm (10.8")  
 Height: 56cm (22")

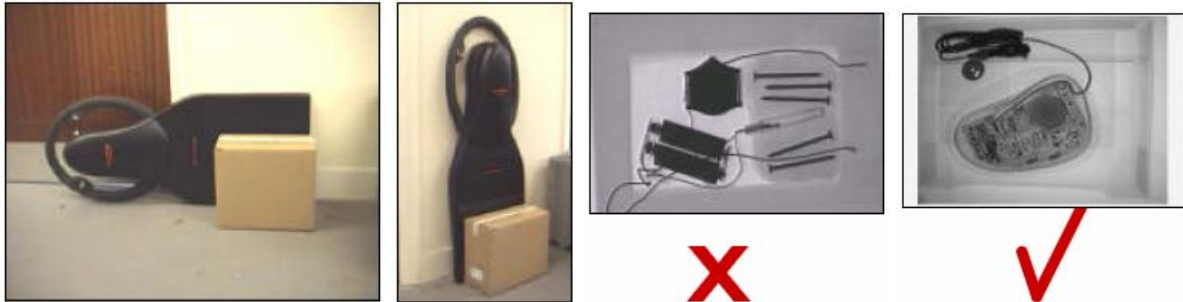

Note: All dimension are approximate

## SCANWEDGE 3325 - Portable x-ray Imaging System

### Innovative, Rugged and Flat with lots more coverage:

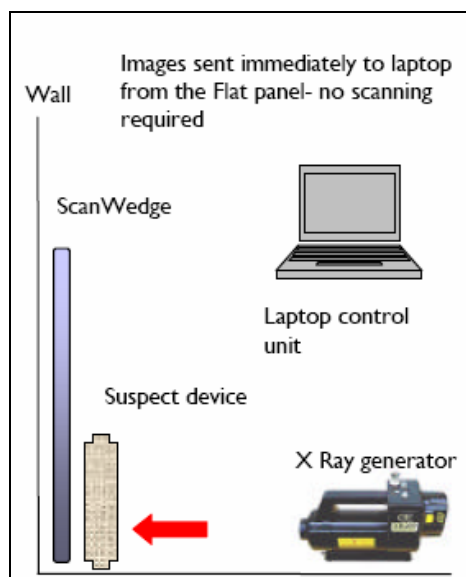

A new, rugged flat panel x-ray imaging system specifically designed for Security and Law Enforcement professionals. Its unique flat panel design allows **SCANWEDGE** to be used even in the most confined spaces. **SCANWEDGE** can be used from different orientations and its powerful imaging processing software produces high quality resolution x-ray images. Furthermore, its flat imaging area of 25cm x 33 cm provides more than 50% coverage than other conventional portable x-ray systems. **SCANWEDGE** is available as a complete system or as a flatpanel upgrade or accessory for your current generator or other portable x-ray system.

**SCANWEDGE** is available as a complete flat panel x-ray system and/or as an upgrade to Golden portable x-ray generators currently using Costly Polaroid Film or Image Processors; and Conventional CCD Imaging Boxes. Integrates with **SCANTRACK's** imaging software to produce high resolution x-ray images

### Some Good Reasons to invest in or to upgrade your old portable x-ray units to **SCANWEDGE**:

<b>High Resolution Images</b>	Utilises powerful imaging software
<b>Flatter</b>	Substantially slimmer than conventional units
<b>Safer for operation</b>	No re-approach to suspect objects
<b>Stronger</b>	No mirrors, no moving parts and few fragile components
<b>Faster</b>	High quality images straight to laptop. No reapproach, no scanning, no developing required
<b>50% more coverage</b>	<b>25 x 33 cm (10 x 13") Imaging Area.</b> Complete x-ray system fits in single case.
<b>More rugged in the field</b>	Specifically designed for Police and EOD operations
<b>Less expensive</b>	No film, no consumables, fewer fragile components
<b>More versatile</b>	Tri-directional. Use upright or slide in from either side
<b>Very Compatible</b>	Use with Golden Generators and other 'safe' generators

### Dimensions:

Imaging area: 25.4x33cm(10x13")  
 (a) Depth(Bottom): 2.9cm (1.1")  
 (b) Depth Top of Panel: 3.7cm(1.45")  
 (c) Depth at domed area (above screening area): 11.4cm(4.4")

Width: 34.4cm (13.5")  
 Height: 93.2cm (36.6")

Note: All dimension are approximate
